Wall Mounted

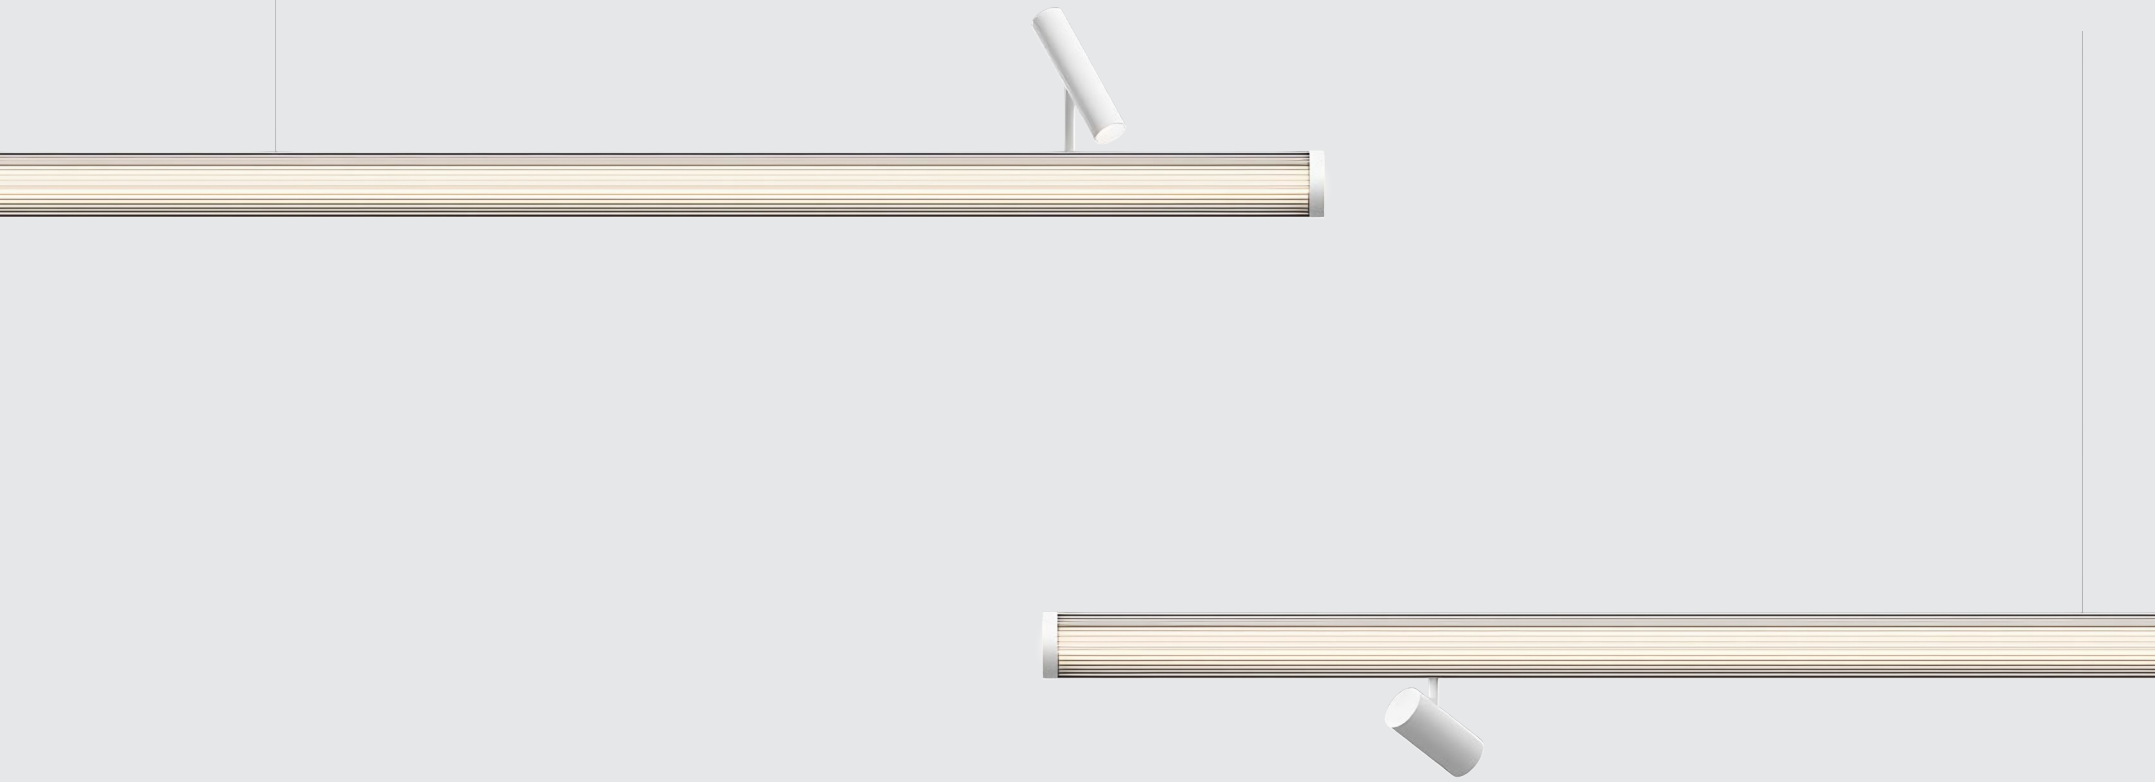

Vertical Mounted

7MM ONLY
ULTRA-THIN TRACK

Up/down Concealed Track

The up/down concealed track version takes a wide range of spotlights and accent modules. The adjustable light direction adds visual focus and spatial texture.

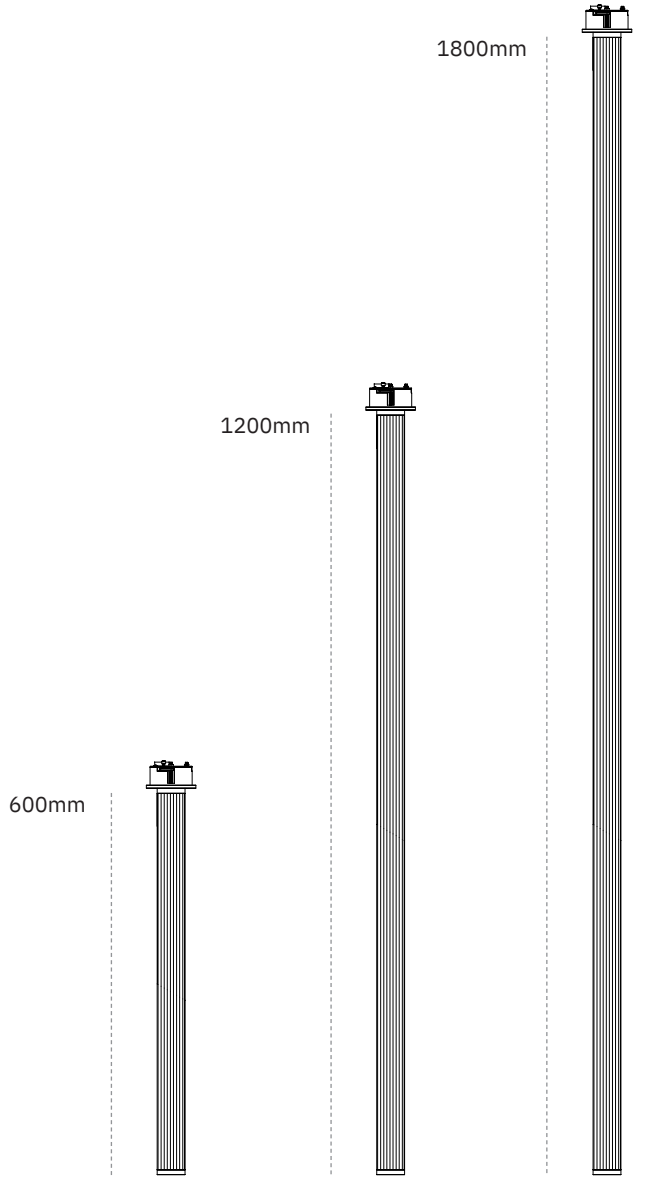

VERTICAL MOUNTED WITH 360° LIGHT EMITTING

M7 Luna 360

Three lengths, which can be configured as suspended light columns that sit naturally within the architecture and allow versatile layouts.

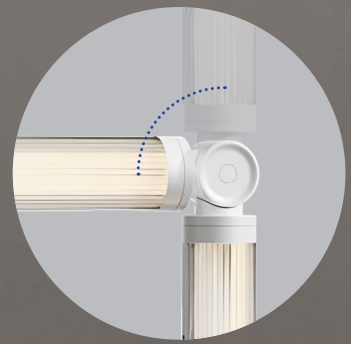

The vertical 360° version lights in every direction, giving even, bright coverage across the whole space.

MODULAR EXPANDABILITY

The two-way joint rotates symmetrically, so the light direction can be adjusted freely for a warm atmosphere. The system expands module by module to suit different architectural needs.

1

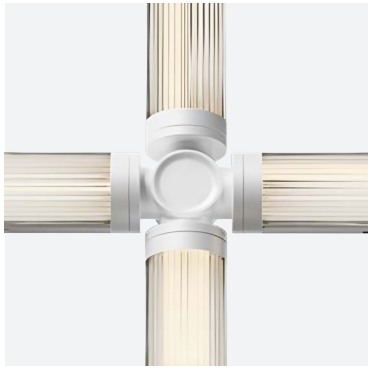

2

3

4

1 **Straight Connector**

Joins M7 Luna sections in a straight line.

DN-M07L48

2 **Two-way joint**

Rotates and joins M7 Luna in two directions.

DN-M07L49

3 **Three-way joint**

Rotates and joins M7 Luna in three directions.

DN-M07L50

4 **Four-way connector**

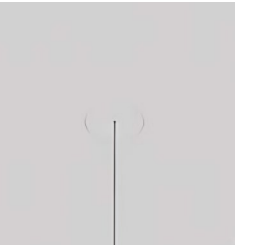

Joins M7 Luna in four directions.

DN-M07L51

The concealed suspension design
gives a clean, uniform ceiling.

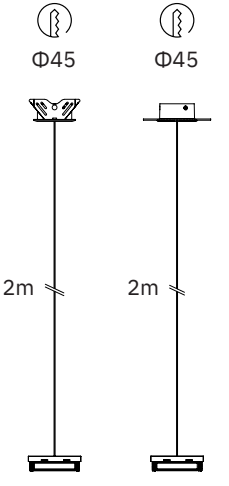

1 **Trim**

4 **Trimless**
DN-M07L55

Modular System

Works with the whole M7 module range, including spotlights, reflector lights and grille luminaires, for flexible layered lighting.

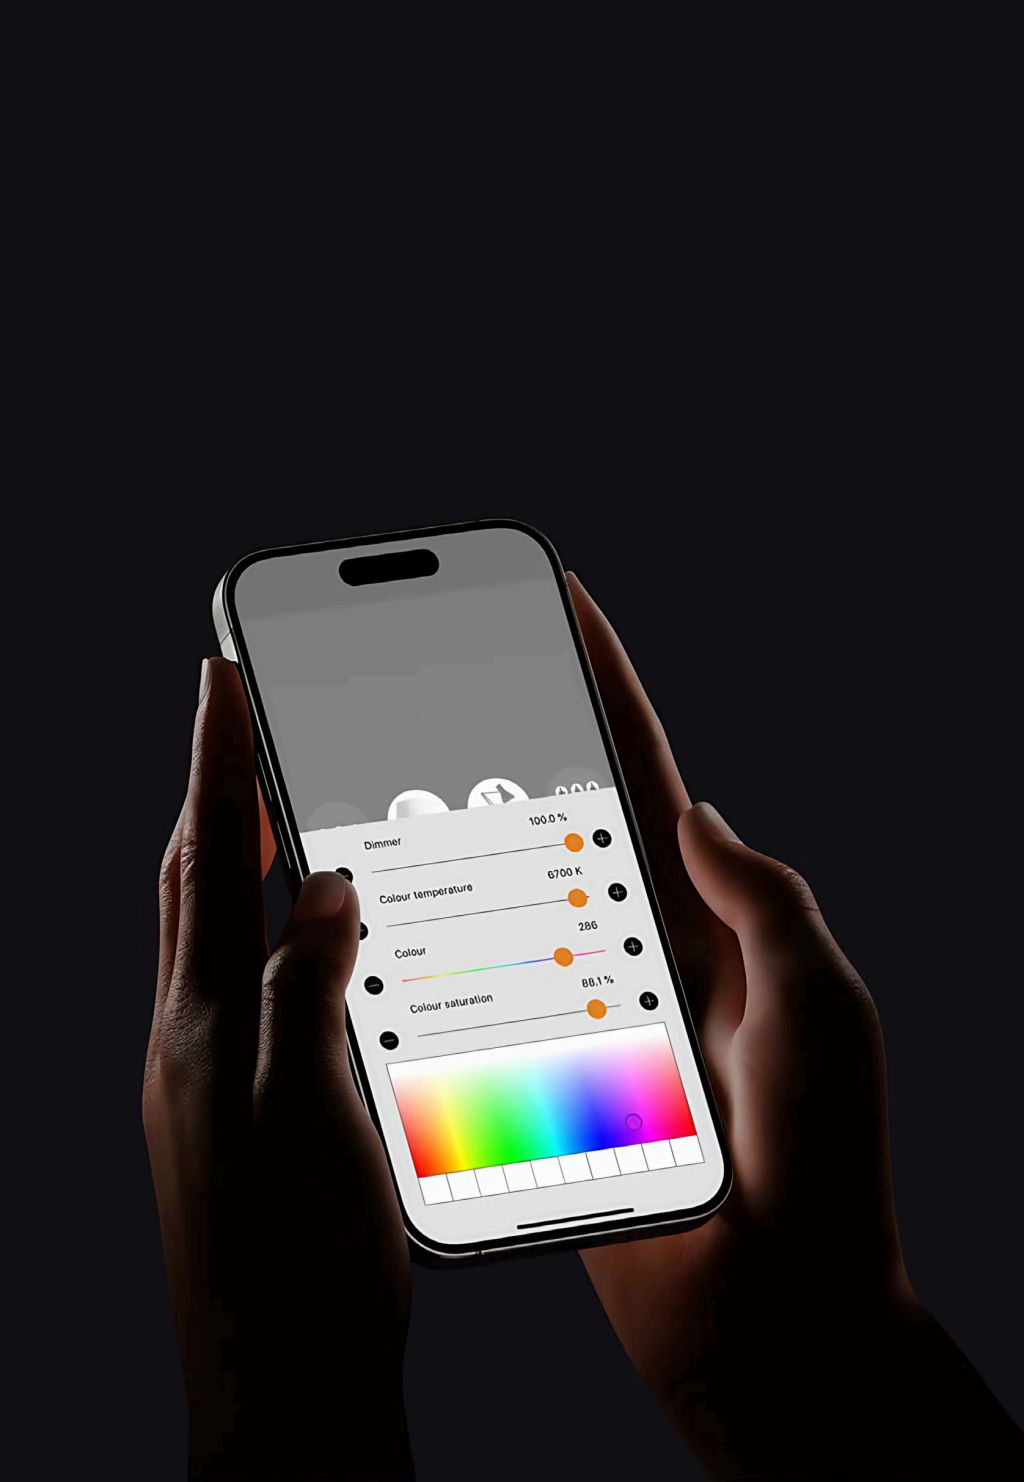

White / Black

Gold / Champagne / Chrome / Silver

M7 LUNA
FINISH

CONNECTED
SYSTEMS

Available in multiple colour options to suit any requirement.

Supports both CASAMBI and DALI-2 control protocols.
Direct, per-fixture control from a tablet or smartphone.

Casambi app enables individual or group control of fixtures, lighting scenes, and schedules.

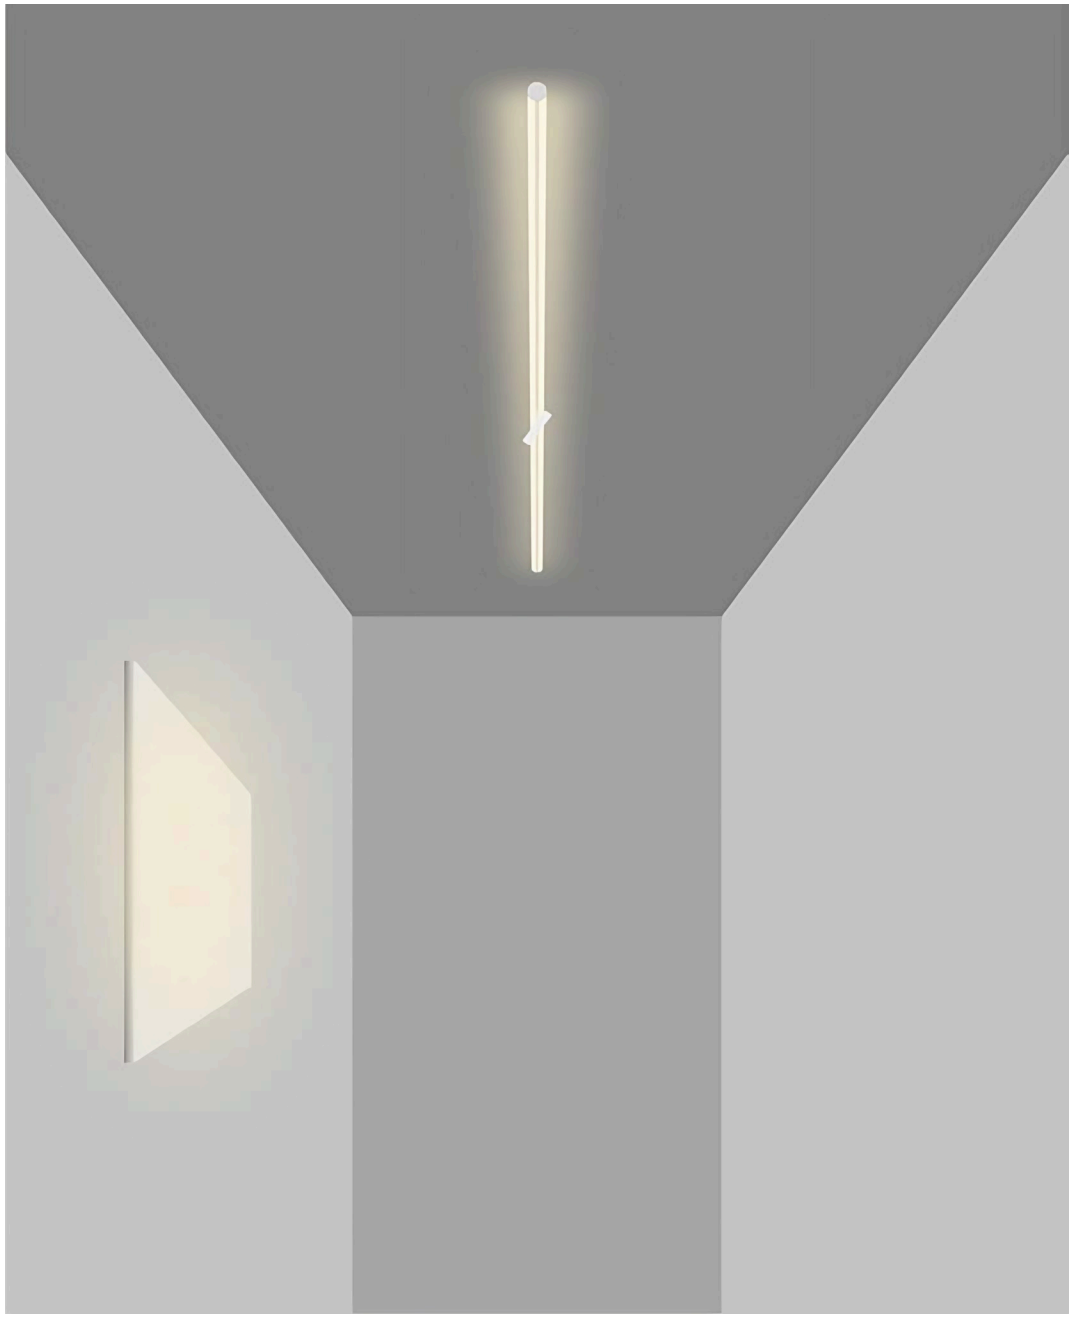

Combine traditional electrical switches with Bluetooth for complete control of the ambience.

CASAMBI

Inset single control via
Casambi app

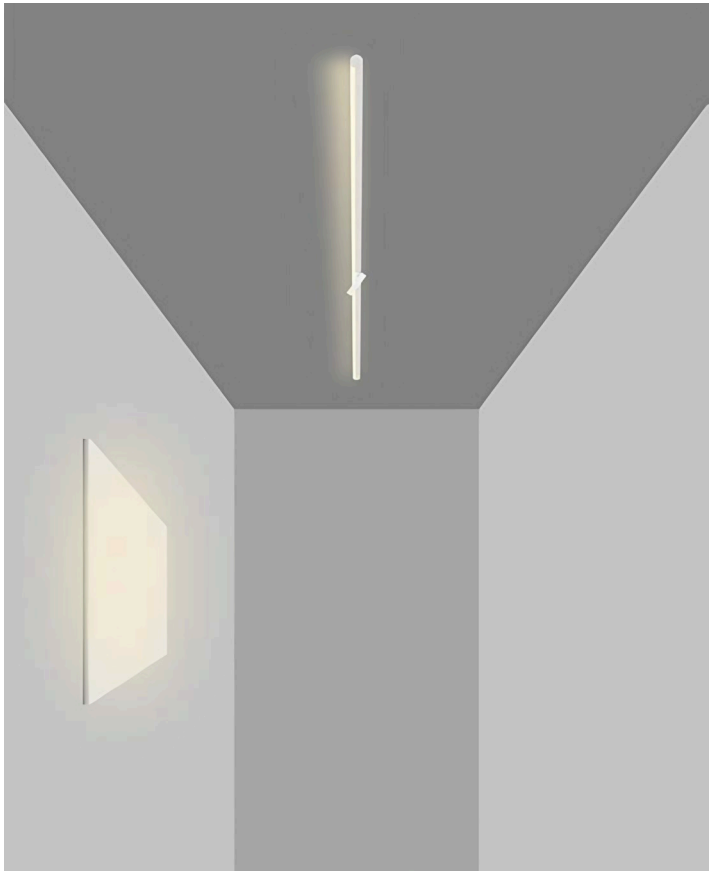

Available on the App Store

GET IT ON Google Play

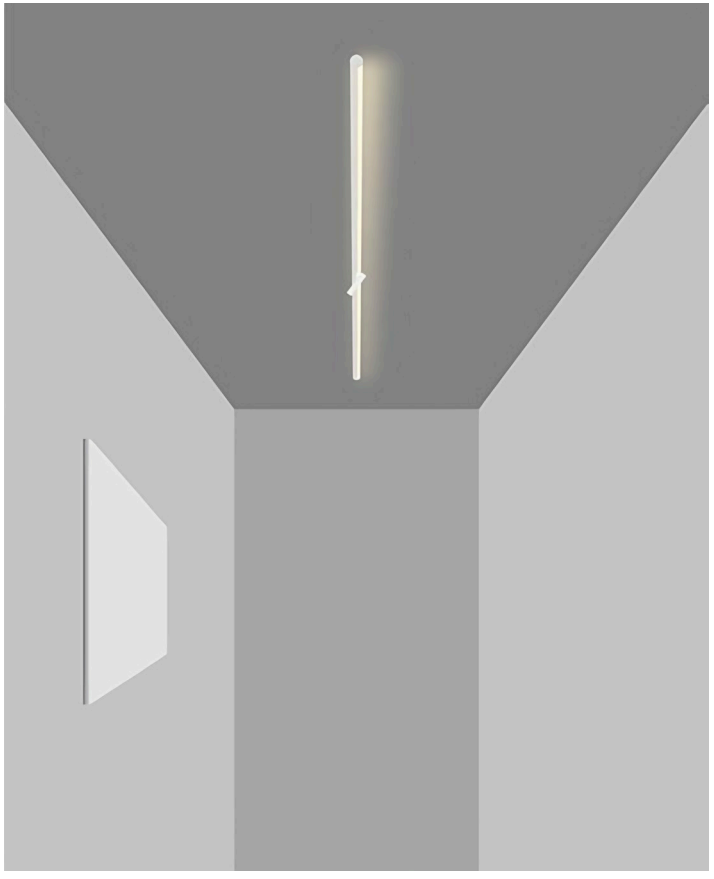

M7 Luna system supports DALI and Casambi wireless dimming, allowing each lighting fixture to be controlled independently for precise brightness and CCT adjustment.

WIRELESS DIMMING CONTROL

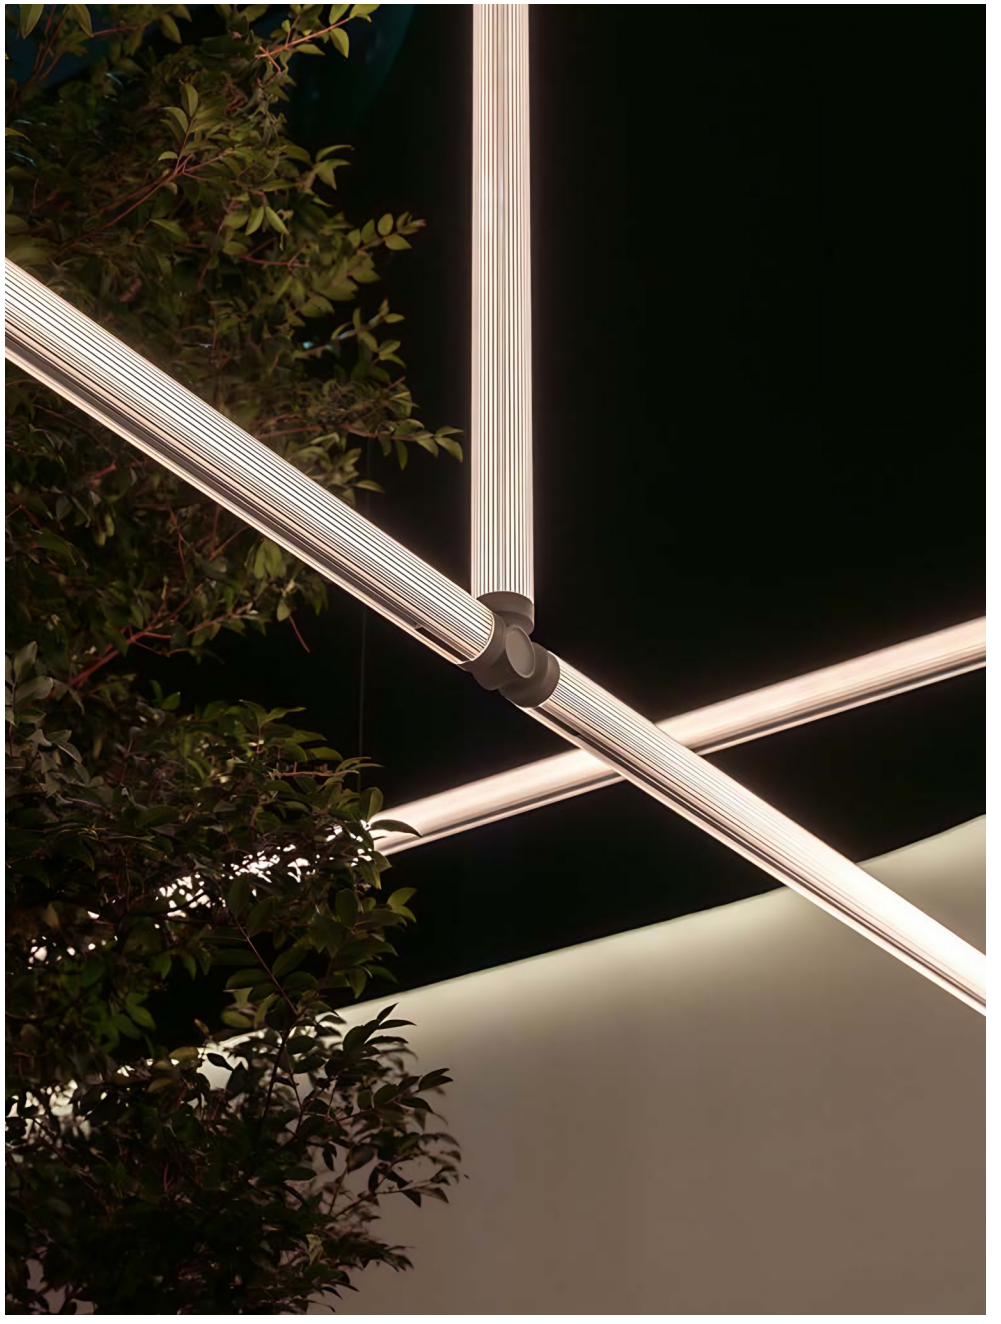

Independent control (Left)

Independent control (Right)

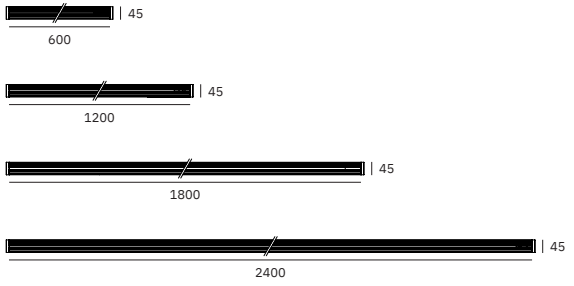

Redefining the form
of light with exceptional flexibility

The linear fixture is seamlessly integrated into the vertical plane, allowing the light itself to take precedence over the hardware.

M7 Luna

M7 Luna

Ultimately, the light acts as a subtle mediator between structure and space, embodying a philosophy of “less is more.”
