QUBO POLE MEDIUM MAXI

-COD. 808001
-COD. 808002
-COD. 808003
-COD. 808004

ASSEMBLY AND OPERATING INSTRUCTIONS:

-Class I fitting electric gruonding is needed

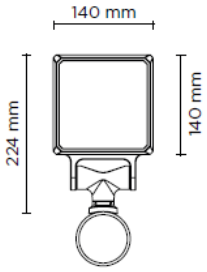

Directive 2002/96/CE (Waste Electrical and Electronic Equipment– WEEE
Information for users:
The crossed out wheeled bin label that can be found on your product indicates that this product should not be disposed of via the normal household waste stream. To prevent possible harm to the environment or human health please separate this product from other waste streams to ensure that it can be recycled in an environmentally sound manner. For more details on available collection facilities please contact your local government office or the retailer where you purchased this product.

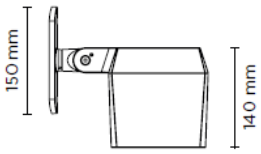

Retain the instructions	The article is suitable for indoor and outdoor use
Replace the damaged protective glass	Do not use high pressure cleaners

NB: These assembly instructions must be given to end users for correct maintenance and so that they know how to change the bulb. The appliance must not be tampered with or transformed and it must be installed and used as supplied and in compliance with the National Rules on Installations. Any non-compliant installations will invalidate all forms of guarantee. The company cannot be held

COD. 808001

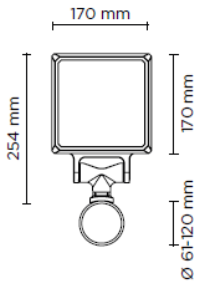

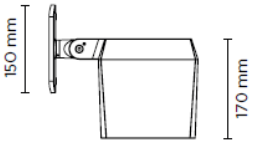

QUBO MEDIUM COB POLE
-Power consumption : 16W
-Voltage : 220-240V 50-60Hz
-Color Temperature : 3000K - 4000K
-Beam angle : 14°-35°-55°
-Insulation class: I
-IK rating : IK10
-IP protection: IP66
-Gross weight: 3.1kg

COD. 808002

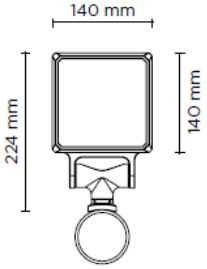

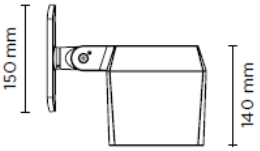

QUBO MAXI COB POLE
-Power consumption : 42W
-Voltage : 220-240V 50-60Hz
-Color Temperature : 3000K - 4000K
-Beam angle : 14°-35°-55°
-Insulation class: I
-IK rating : IK10
-IP protection: IP66
-Gross weight: 4.5kg

COD. 808003

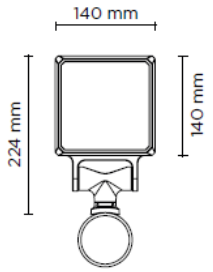

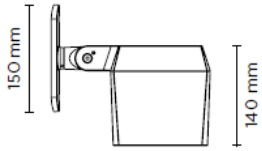

QUBO MEDIUM HP POLE
-Power consumption : 20W
-Voltage : 220-240V 50-60Hz
-Color Temperature : 3000K - 4000K
-Beam angle : 4°-10°-28°
-Insulation class: I
-IK rating : IK10
-IP protection: IP66
-Gross weight: 3.1kg

COD. 808004

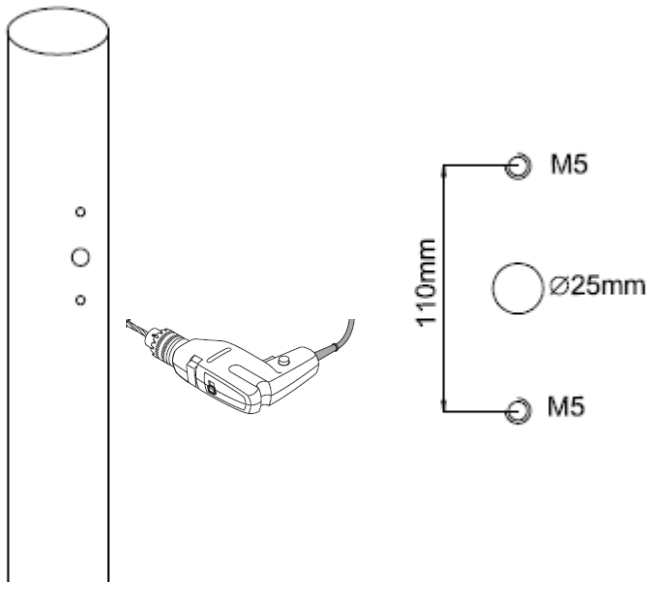

QUBO MAXI HP POLE
-Power consumption : 38W
-Voltage : 220-240V 50-60Hz
-Color Temperature : 3000K - 4000K
-Beam angle : 4°-10°-28°
-Insulation class: I
-IK rating : IK10
-IP protection: IP66
-Gross weight: 4.5kg

Recommendations
-Verify that the equipment used to connect our devices to enjoy all the guarantees required under European law;
-Use the cables, connectors and quality materials for electrical wiring;
-Products with IP66 degree make the wiring / connections with accessories provide the same degree IP of the selected product (available in the catalog);
-In the case of installations outside is not recommended to install the power supplies in the formwork and / or in the junction box without adequate protection
A scheduled maintenance programme must be carried out on the installation and the fittings regardless of their IP rating or application – these must include the following operations:
-Clean the fittings from dirt that may be deposited on the protection grills and in the heads of the screws by following the installation instructions attached to each fitting.
-Check that the screws are not loose on the various components of the luminaire (glass frame, cable entry , ….).
-Check each cable gland, and cable for damage and that the cable gland has not come loose.
-For each Isolation Class 1 fitting check that the earth cable has not come loose. The clip must not show signs of oxidation, damage or become loose.
-Check that all the seals are in good condition and that they are not dry, damaged or split.
-Check the glass or plastic screen for damage and replace if required.
-Check for water inside the luminaire's housing and its recessing box.
-The internal components such as the ballasts, transformers, washers and screws must not show clear signs of oxidation or rust. Clear traces of rust and oxidation will indicate the presence of water inside the luminaire.
-In case of damage the components must be replaced by original components and spare parts before using the fitting.
We also recommend to check the fitting each time the lamp is replaced or at least once a year or within the prescribed maintenance schedule period depending on the type of installation.
-Terminal block not incuded. Installation may requireadvice from a qualified person. For wiring use a terminal complies with EN60998-2-1, EN 60998-2-2.The IP rating of the electrical connection must be equal to or greater than the IP rating of the luminaire.

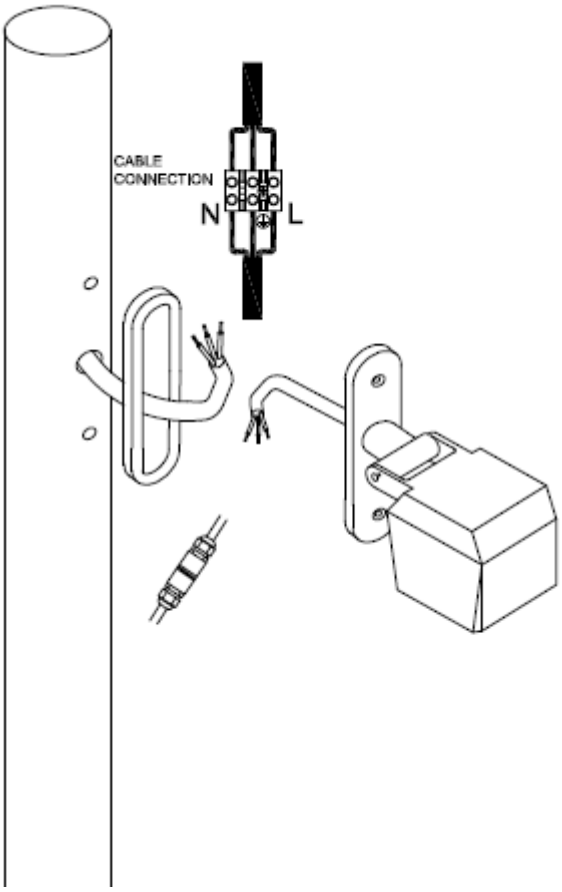

Note on corrosion protection
For installation and maintenance be especially careful not to damage the coating powder . Damage combined action of water could cause corrosion.
-In the case of damage to the external flexible cable, it must be replaced by the manufacturer, or its assistance service, or equivalent qualified personnel in order to avoid dangers
-In the case of glass breakage, contact the device manufacturer to replace it. Replace the screen with an original replacement

Installation:
- Prepare holes in the pole in the desired position making two M5 threads and one central hole used to pass through the cables and connectors(pic. 1)
- Place the pole plate gasket and make the electrical connection following the correct safety electrical rules. (pic. 2)
- Fix the the luminaire to the pole tightening the two fixing screws (pic. 3)
- Adjust the desired angle of the luminaire unscrewing and then tightening the two screws and the grub screws of the luminaire joint using the tools included in the package. (pic.4)
