

DESCRIPTION

The Less System offers a modular interpretation of luminous composition, balancing linear elements and spherical diffusers in satin glass. Less 3 brings together three independent light components, rods, spheres or both, allowing for linear, offset or layered arrangements. Light interacts with finely finished surfaces in natural burnished brass. Less System is also available in five-element version.

DESCRIPTION

Less 5 extends the architectural potential of light through a composition of five luminous elements. Rods, spheres or combined forms are freely positioned to create complex and expansive layouts suitable for large-scale environments. Light reflects on material surfaces crafted in natural burnished brass finish. Less System is also available in three-element version.
